

90% Less Steer Effort... 100% Intelligent

PowerSteer

You read that right. *PowerSteer* on the Raymond Model 8400, takes up to 90% less effort for your operators to move more and move it faster.

Designed to keep your operation's productivity at optimal levels, *PowerSteer* is a true example of intelligent innovation that the materials handling experts at Raymond are proud to provide.

PowerSteer provides many advantages:

- › Unmatched control with speed sensitive steering
- › Smoother operation
- › Reduced physical demand on your operators

Raymond's intelligent speed sensitive steering gives your operators steer assistance where they need it most – at slower speeds.

PowerSteer makes each shift more productive for any operator.

PowerSteer Improves Operator Effectiveness

3

Based on extensive customer input, *PowerSteer* on the reliable Model 8400 **improves control, reduces fatigue and increases operational productivity.** With intelligent speed sensitive steering, *PowerSteer* gives your operators steer assistance where they need it most – at slow speeds. With fewer parts, the model 8400 boasts higher efficiency and significantly less maintenance. And, the *PowerSteer* system is completely contained within the tractor compartment which provides more legroom and comfort for your operators.

PowerSteer is ideal for:

- › Long duty cycles
- › End aisle turning
- › Crowded docks
- › Heavy loads
- › Operators of all body types, from small to large
